Registration requirements for students from other schools of Reiki

It is roughly estimated to be around 300 different Reiki lineages. For the best understanding and smooth progression through your Reiki training, first it must be noted that while the door is open to students from other schools of Reiki, it is always best to start from the beginning as all the classes are organized progressively from one level to another, academically and energetically. Even if you are accepted to your requested level there are things that may not be the same or that you may not have learned in your other school that we will not have time to review in the following class.

Secondly there is a question of energy, this is a Holy Fire lineage and some of the teachings, procedures and the energy are not the same. For example, those wanting to sign up for Master class from another lineage you would have to start from level 3 to receive the teachings of this lineage and also to prepare yourself energetically for the Master level initiations. You may also be required to start at an earlier level depending on the evaluation.

In order to evaluate the lineage compatibility and for the student evaluation you must provide clear copies of your previous certificates and compile a short document with the following information and will be kept for your student record when accepted:

- A short description of what attracted you to Reiki;
 - what you feel it has brought you;
 - why you want to continue and why in this school.
- List what you have learned in each previous level:
 - Can be in the form of a table of contents;
 - techniques and a brief explanation of them.

For more information on the classes and the prerequisites please refer to the web site.
